SHIVANGI **KUSHWAHA**

AI / ML DEVELOPER

About me

Computer Science Engineering student specializing in Artificial Intelligence and Machine Learning. Interested in building intelligent applications, practical AI solutions, and backend systems.

Personal

Shivangi Kushwaha
Nagpur, Maharashtra, India
B.Tech CSE (AI & ML)

Areas of specialization

Artificial Intelligence
Machine Learning
Natural Language Processing
Backend Development
Internet of Things

Programming

Python
Java
JavaScript
HTML / CSS
SQL / MySQL
Flask

Tools & Technologies

Scikit-learn
NLTK
SQLite
Gradio
Chart.js
Git & GitHub
Linux

Interests

Applied AI
Agentic AI
Full-Stack Development
Classical Kathak

Short Resumé

2026 — **Software Engineering Intern**
Planitt Solutions Pvt. Ltd.
Contributed to FinBot AI, a conversational financial assistant using Flask, NLP, machine learning, and MySQL. Worked on calculator workflows, recommendations, and database integration.

2025–2026 — **AI and Software Project Development**
Academic and Personal Projects
Developed applications involving conversational AI, multi-agent information processing, REST APIs, financial calculations, and database integration.

Degrees

2024–2028
B.Tech – Computer Science and Engineering
Symbiosis Institute of Technology, Nagpur
Specialization: AI & ML
CGPA: 7.85/10

Programming

Python
Java
JavaScript
HTML / CSS
SQL / Flask

Curriculum

Project — **FinBot AI – Financial Assistant**
Flask • NLP • ML • MySQL
Developed SIP, EMI, lumpsum, and brokerage calculator workflows with conversational interaction, chat history, database persistence, and ML-based recommendations.

Project — **CrisisPulse AI**
Python • Gradio • LLMs • Tavily
Built a crisis information processing workflow to research reports, synthesize information, and generate structured briefings.

Project — **SmartBank REST API**
Flask • SQLite • SQLAlchemy
Created a banking simulation backend supporting account transfers, transaction processing, and transaction history.

Project — **Smart Lighting System**
Arduino • IoT • Sensors
Co-developed an ambient-responsive lighting system. Associated utility patent: 1040/MUM/2022.

Certificates & Grants

2025
Hertie School Data Science Lab
Data Science Summer School

Additional training
Red Hat Training
Infosys Springboard
Agentic AI Training

Achievements

Utility Patent
Smart Lighting System
Patent No. 1040/MUM/2022

Technical Projects
AI/ML and software development

Languages

English
Hindi
German

Leadership

Cyber Guardian Club - Co-Coordinator
Arts & Cultural Club - Ex Co-Cordinator
